

## DIGITAL SIGNAGE

### Features

Supports multiple file formats: Picture, Music and Video.

Supports CF, SD, MMC and MS (Pro) memory card.

Supports FILE LIBRARY : File directory management.

Supports NTSC / PAL systems.

Supports USB 2.0/1.1 interface.

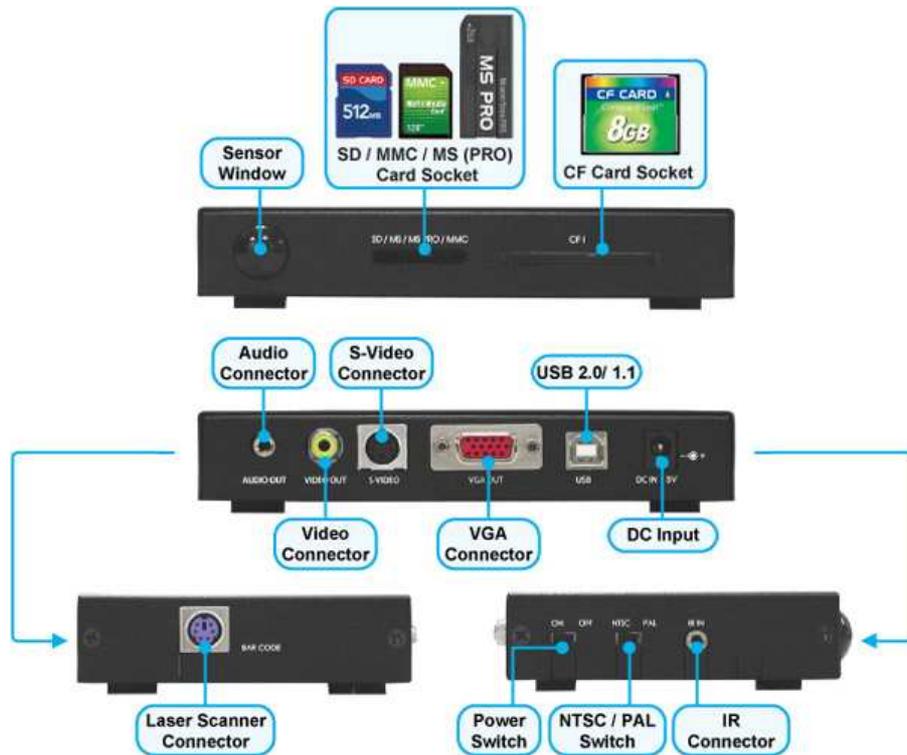

## Introduction

The Eyezone B400C is a palm-size digital player that plays picture, music and video without a computer. It uses media files from CF, SD, MMC and MS (Pro) memory card. By connecting Video, S-Video, VGA and Audio, you can play media files on any display device. What's more, the Eyezone B400C supports PIR Sensor and Laser Scanner connectors (optional).

**PIR Sensor (optional):** After sensing approaching subjects, the Eyezone B400C will play the files automatically.

**Laser Scanner (optional):** The B400C will display the corresponding file when the laser scanner scans the bar-code.

By using the USB 2.0/1.1 bus interface, you can download/ upload media files between PC and the memory card. With the portable Eyezone B400C, you can play the shows on TV or any big screen for advertising, presentations, training, and other media applications.

## Support Slide Show

Supports SLIDE SHOW Function : With 14 kinds of transition effects.

Supports SLIDE TIME (INTERVAL) Mode : Interval time with 1, 3, 5, 10, 30, 60 seconds.

Supports MUSIC SLIDE Show : Music and pictures play at the same time.

Includes a full-function infrared remote control.

Multi-Language OSD : English, French, German, Italian, Portuguese, Spanish, Netherlands, Japanese and Chinese

Supports ZOOM IN (ON) 4x & PAN, ROTATE, MIRROR, PREVIEW and REPEAT.  
Supports Video, S-Video, VGA and Audio output.  
Supports resolution up to 640x480.

## Optional Functions

Timer Function: The Eyezone B400C will power on / off automatically at the designated time.

Schedule Function: The Eyezone B400C will auto play the designated file at the designated time. There are two modes: "Basic Schedule" and "Advance Schedule".

- **Basic Schedule:** You can select files that you want to play and set up the volume and the play times of each file.

- **Advance Schedule:** You can select the files that you want to play, and also can set up the volume, the play times and the initial and end time of each file.

## Optional Equipment

### 1. PIR Sensor ( Eyezone PIR )

- The PIR sensor is not only a motion detector, but also a remote control receiver
- After sensing approaching subjects, the Eyezone B400C will play the files automatically.
- Sensing distance is up to 3 meters with an angle of 45°.

### 2. Laser Sanner

- The B400C will display the corresponding file (up to 1000 files) when the laser scanner scans the bar-code.

### 3. IR Cable

- The IR cable (1 meter) is an external remote control receiver.
