

LA16-18SN/SW Pole/ Pipe Mounting Bracket

- Best solution to fix arm onto Pole and Pipe.
- Great space saver to carry several monitors on a Pole or Pipe at the same time.
- Two models on diameter—35–42mm(SN series) & 42–52mm(SW series) according to thickness of Pole.
- According to VESA standard, two types of monitor can be mounted—75X75mm and 100X100mm.
The mounting plate must be changed while installing 100X100mm type
- The monitor can be fixed on Pole since the arm is clamped tightly against the Pole.
- Some best applicable locations: Operational platform, any place with industrial equipments, etc.
